June 14-18 juin 2021

Call for Abstracts

15th CASI Flight Test and Flight Operations Symposium

CASI AERO 2021 offers unparalleled opportunities for networking, collaboration and professional development to delegates from Canada and around the world. AERO'21 will be presented on-line in seven Symposia, together with top-flight panels and keynote speakers. The conference can focus on such topics as autonomous air mobility and enabling technologies that may be of interest to multiple disciplines. Proposals for joint sessions involving two or more Symposia will be considered.

Suggested topics for this Symposium

Canadian contributions to aviation and space flight include a legacy of ground-breaking research, many innovations and outstanding commercial successes. This Symposium will provide a forum for discussion of the latest developments regarding issues affecting the fully integrated system during flight test and in operation. Particular areas of interest include, but are not limited to:

- Innovations in flight test techniques applicable to crewed and remotely piloted aircraft
- Testing and operation of electric and hybrid-electric propulsion vehicles
- Flight test challenges for development and certification of autonomous systems
- Autonomous air vehicle testing considerations in adverse weather including icing
- Test and operation of new technologies applied to legacy aircraft
- Flight test and flight operations in the context of the COVID-19 and future pandemics

Abstract submission

Abstracts should be approximately 300 words, must identify all authors/organizations, and must include phone/e-mail contacts for the lead author. [Click here to submit your AERO 2021 abstract.](#)

Language of the conference

The language of the conference is English.

Deadlines

Initial abstracts: April 7

Notification of abstract acceptance: April 20

Abstracts (1000 words) for student awards: May 7

Notification of student award finalists: May 19

Full papers/extended abstracts: June 14

Workshops

Proposals are invited for specific topics that lend themselves to this treatment. A 500-word proposal including the subject area, contents and suggested speakers should be submitted by April 7 to: General Chair, AERO'21 at aero@casi.ca.

Student presentations

Student presentations in all Symposia may be eligible for the AERO'21 Best Student Presentation Award. Students who wish to be considered for this Award must submit an abstract of at least 1000 words including key results and supporting figures, and indicate student status and affiliation. Nominated finalists will give their presentations in a special Session during the Conference.

Proceedings

Proceedings will include full papers and extended abstracts. Authors who submit full papers or extended abstracts may have their submission considered for publication in the *Canadian Aeronautics and Space Journal*.
