

# Nomination for Advancement to Member

## Nomination for Advancement to Member

A Member shall have acquired a professional standing in the practice of the art, science or engineering relating to aeronautics, astronautics or associated technologies. Graduation from a university or other institution recognized by the Council is the usual first step in establishing this standing. Alternatively, recognized standing gained through professional - quality work experience of not less than 6 years duration may be acceptable.

- Applications for advancement in grade from Junior Member to Member shall include the names of two references familiar with the academic qualifications and/or work of the applicant.
- Applications for advancement in grade from Associate Members to Member shall include the names of two references familiar with the work and qualifications of the applicant. One reference shall be a member of the Institute.
