

CASI W. Rupert Turnbull Lecture

Conference de l'IASC W.Rupert Turnbull

In 1955 the Canadian Aeronautical Institute established the W. Rupert Turnbull Lecture to commemorate the pioneering work in aeronautical engineering carried out by Dr. Turnbull. The Lecturer is selected for his or her association with some significant achievement in the scientific or engineering fields of aeronautics, space associated technologies or their application, and for his/her qualifications to present a paper related to it.

The Lecture is delivered at a major meeting of the Institute.

En 1955, l'Institut aéronautique et spatiale du Canada institua la conférence W. Rupert Turnbull afin de commémorer le travail de pionnier du Dr Turnbull dans le domaine du génie aéronautique. Le conférencier est choisi en fonction de sa participation à une réalisation importante dans le domaine des sciences et techniques de l'aéronautique et de l'espace, des technologies connexes ou de leur applications, ainsi qu'en fonction de sa capacité de présenter un document s'y rapportant.

La conférence est donnée à l'occasion d'une réunion importante de l'Institut.
